WEB DEVELOPER | UI/UX

I am truly passionate about what I do and am always looking for new ways to adapt. With a diverse background in software, management, design and social work, I am confident that I bring exemplary value to any team.

EXPERIENCE

Freelance, Nashville, TN — *Full Stack Developer*

JULY 2023 - CURRENT

Design, build and maintain web applications for a wide range of clients. Consult with individuals on an hourly basis to assess needs and provide solutions. My most recent projects can be found at jonolane.io. Some of the technologies I use are: Node, React, SSG, Tailwind, Sanity.io, Express, MongoDB, Postman, and more.

Belmont University, Nashville, TN — *Programming Tutor*

AUGUST 2015 - MAY 2017

Helped and taught students with computer science courses ranging from Intro to Computer Science to Programming II in Java. Occupied the Math / Science learning center and assisted all students requiring assistance.

Acxion, Nashville, TN — *Digital Content Specialist*

AUGUST 2014 - MAY 2015

Performed responsive PSD conversions of client emails, marked up with HTML, SCSS, and Javascript to suit the company platform *Impact.* Conducted platform QA of all content, desktop or mobile, to insure campaign launch.

EDUCATION

Belmont University, Nashville, TN — B.S. in *Web Programming and Design*

AUGUST 2010 - MAY 2016

Minored in Music Business.

PERSONALITY

Myers Briggs, INFP
The Mediator
